As a front-end developer, I have a strong passion for ReactJS and extensive knowledge in HTML, CSS, JavaScript, and various libraries and frameworks including Redux and Node.js. Although I am currently seeking a junior position, I always strive to deliver high-quality, bug-free code that meets project requirements. Working collaboratively with cross-functional teams is one of my strengths, and I am constantly looking for new challenges to expand my skill set in the ever evolving world of web development.

PROFESSIONAL EXPERIENCE

Learning hub
